16. Januar 2020

Gr. Hörsaal, Arnimallee 22, 14195 Berlin

13:00—13:45 Verleihung des Nachwuchspreises für Fluorchemikerinnen an [Diana Gimenez-Ibanez](#) (Durham, UK) durch [Sebastian Riedel](#) (**B3, B4, Z**, FU Berlin) und [Sebastian Gutmann](#) (Solvay)
Preisvortrag:

Exploring the applications of fluorine for peptoid structure induction

13:45—14:45 *Inspiration from Fluorination: Chemical Biology Approaches to Probe Molecular Recognition Events in Transcription*

[William C. K. Pomerantz](#) (Minneapolis)

14:45—15:15 Kaffeepause

15:15—15:45 *The influence of fluororous interactions on protein folding*

[Valentina Stulberg](#) (**A4**, AG Koksche, FU Berlin)

15:45—16:45 *Fluorine specifics-enabled advances in fluorocarbon-assisted oxygen delivery, diagnosis and therapy*

[Marie-Pierre Krafft](#) (Strasbourg)

16:45—17:15 *Supramolecular aggregation of fluorinated amphiphiles*

[Svenja Ehrmann](#) (**C6**, AG Böttcher, FU Berlin)

17:15—17:35 Kaffeepause

17:35—18:35 *Fluorinated Compounds from a Regulatory Perspective*

[Tewes Tralau](#) (BfR Berlin)

19:00 Gemeinsame Nachsitzung
